

Craig Harvey – Biography

Craig Harvey brings more than 20 years of GIS experience in nearly all aspects of the technology. Craig was a public servant working more than 15 years with the US Geological Survey as a member of the Senior GeoSpatial Staff. Craig left public service to join a fledgling startup company located at NASA's Stennis Space Center in 1999. Intent on positioning a technical staff to capitalize on the Web-based evolution of Geospatial data processing and data delivery, Craig helped found NVision Solutions in early 2002. NVision, under Craig's leadership, has doubled in size and revenue each of its first 4 years and continues to grow over the past two years in spite of a well publicized recession. Under his leadership, Craig, and NVision have amassed an impressive catalog of awards:

- *2008 Named One of Top 20 participants over last 5 year's in NASA's Innovative Partner Program*
- *2006 U.S. Small Business Administration's Mississippi Small Business Person of the Year Award,*
- *ESRI's "2005 Special Achievement in GIS (SAG)" award*
- *"2005 Small Business Innovator of the Year" award in Mississippi*
- *"2004 Governor's Technology Innovator of the Year" award in Louisiana*
- *ESRI's "2002 Special Achievement in GIS (SAG)" award*
